Use allowed
Rule 1
For temporary workspace, I can consider pale wood from the saved temporary workspace event. Check the current requirements before deciding; that choice alone does not establish a lasting preference.
Recommendation use is limited to the saved person and task boundary.
Source available to this use
I chose the pale-wood desk for my temporary workspace because it fits.

Use prevented
Rule 1
I will not use this event for that purpose. Please state the requirements for this request.
Recommendation use is limited to the saved person and task boundary.
No source passed to this use
The original event is still retained. This test receives an empty memory projection.
